簡介 About

建造業議會已推出《香港建造業主要持份者的安全角色及責任 - 電力工作實用》參考指引，為業界持份者提供循序漸進的指導，以便在工程展開前，發展一套安全的電力工作系統。是次「生命第一 - 行出安全」網上研討會邀請了機電工程署及嘉福機電工程有限公司代表分享有關電力工作的安全。

The Construction Industry Council published Reference Materials on “Safety Roles and Responsibilities of Key Stakeholders in the Hong Kong Construction Industry – Practical Reference Guidance on Electrical Work” to provide a step-by-step guidance for industry stakeholders to develop a safe system of electrical work before commencement of the work. Representatives from Electrical and Mechanical Services Department and BYME Engineering (Hong Kong) Ltd. are invited to this upcoming “Life First – Walk the Talk” webinar to share electrical safety.
