

Feature Story

Pave The Way for New Standards of Efficiency and Innovation in Construction

The construction industry is undergoing a transformative shift, thanks to the growing prominence of construction robotics. This technological revolution is poised to reshape the way we approach construction projects, driving increased efficiency, safety, and sustainability.

Step into the future of construction with our advanced robots, addressing labour shortages and skyrocketing productivity by automating repetitive and hazardous tasks. Equipped with cutting-edge sensors and technologies, they prioritise onsite safety and promote eco-friendly practices through optimised material usage. Join the forefront of innovation with the Construction Industry Council (CIC), offering exclusive events showcasing the latest in robotics advancements. Explore our comprehensive brochure featuring a wide range of available construction robots. Elevate your skills with specialised training courses, empowering practitioners to seamlessly integrate and master these robotic systems for unprecedented construction excellence.

Upcoming Events

CIC MASTER CLASS IN SAFETY LEADERSHIP CULTURE

Join us for a professional development opportunity designed for project directors committed to creating and maintaining a culture of safety. Learn from industry leaders and gain practical tools to implement effective safety initiatives and engage employees at all levels. Network with like-minded professionals and leave with a deeper understanding of safety leadership culture. Our guest, Mr. LEUNG King Yin Tommy, Executive Director of Third Runway of Airport Authority Hong Kong, will share his safety leadership experience and insights. Don't miss out on this exclusive opportunity to learn from the top leaders in the industry. Register now to secure your spot in the master class.

Date: 24 July 2024
Time: 9:00am - 12:00pm
Venue: Multi-Purpose Hall, CIC-Zero Carbon Park, 8 Sheung Yuet Road, Kowloon Bay, Kowloon

Target Audience: Project Director or above in an organisation
Course Fee: HK\$1,750

Guest Speaker:

Mr. LEUNG King Yin Tommy
Executive Director of Third Runway
Airport Authority Hong Kong

Application deadline: 12 July 2024
*Participants will be accommodated through the online system.
If no in-person confirmed tickets left, priority will be given to online registration.

專題故事

為建造業效率和創新 開創新標準做好準備

建造業正經歷一個變革性的轉變，這要歸功於建造機械人日益突出的地位。這場技術革命勢必重塑我們對建造項目的處理方式，推動效率、安全和可持續性的提升。

隨著先進機械人步入建造業的未來，透過自動化來解決勞動力短缺問題，大幅提升生產力。這些機械人配備尖端的傳感器和技術，優先考慮現場安全，透過優化材料使用促進環保實踐。齊來與建造業議會（CIC）一同領跑創新前線，參加展示最新機械人技術展覽的獨家活動，瀏覽建築機器人手冊，了解各類可用的建築機器人。透過參加專業培訓課程提升技能，使從業人員能夠無縫整合和掌握這些機械人系統，實現前所未有的建築卓越施工表現。
